isbn: 9781402720437

Well-made jigs and fixtures help woodworkers perform virtually every task more accurately and efficiently. That's why it's so important to have a good selection available - and the most economical way to obtain the right ones is to build them yourself. Here "Wood[registered] Magazine" presents dozens upon dozens of

shop-proven jigs and fixtures that make working with wood easier, better, and more enjoyable. Each of these projects comes with all the instructions, plans, and parts views any do-it-yourselfer could need, and there's a fantastic variety of options for the router, all-important tablesaw, bandsaw, and drill press. That's not all: woodworkers will find sanding solutions, clamping helps, and other assorted aids. They range from the extremely simple - a straight-edge cutting jig - to a full-service benchtop router table.
