isbn:9780823067787

"Paper in Three Dimensions" presents papercrafting's hottest categories with a new 3-D slant! Each chapter explores a variety of techniques for creating dimensional surfaces and/or objects with paper and includes examples from today's leading paper artists. Lavishly illustrated step-by-step instructions make it easy for anyone to create

an origami bowl filled with origami lilies; a greeting card in the shape of the Eiffel Tower; or a pop-up sculpture garden complete with trees, gated walls, and flowers. Unusual and sophisticated, "Paper in Three Dimensions" is sure to delight paper crafters at all levels of expertise. It is the latest title from this successful author. Papercrafting is currently the hottest category for crafters.
