装帧:Pap

isbn:9780715323090

This book combines beads with other crafting mediums to create over 50 fabulous projects that are quick to complete. It explores the different beads available to today's crafters, often in easy-to-apply forms, such as ready-strung glass seed beads, beaded

motifs and accent beads. It contains illustrated, step-by-step projects that show in detail how to create the beaded craft projects, and inspiration spreads that provide further ideas for using the beads to their full potential, including gorgeous greetings cards.
