The closest thing to a knitting coach, this primer on knitting describes simple approaches to choosing, using, and wearing colour. Knitters move from being intimidated by the choices to being excited by the possibilities as the skill-building chapters put colour into practice. Clear, step-by-step photographs lead knitters through a progression of new methods punctuated by fabulous and fun projects to knit. The 36 designs range from simple to classic to unexpected and are presented multiple times showcasing different techniques, mixing and matching to yield more than 80 total projects. With advice, tips, and techniques, this tutorial inspires learners

to take their craft to the next level.
