isbn:9780131580510

For sophomore- to junior-level courses in Data Structures or CS-2, offered in departments of Computer Science, CIS, IT, and Business. Most data structures texts are filled with so many technical details (and lack thorough explanations) that the reading

becomes difficult and the course intimidating. This accessible, conversational presentation explores data structures concepts in clear language while maintaining appropriate technical rigor - and makes the course easier to teach. A basic knowledge of C++ is assumed. Supplements Include: * Power Points* Solutions* Test Bank* Programming Code Please go to www.prenhall.com/childs
