If you like to tweak, disassemble, re-create, and invent cool new uses for technology,

you'll love "Make", our quarterly publication for the inquisitive do-it-yourselfer. Every issue is packed with projects to help you make the most of all the technology in your life. Everything from home entertainment systems, to laptops, to a host of PDAs is fair game. If there's a way to hack it, tweak it, bend it, or remix it, you will find out about it in "Make". This isn't another gadget magazine. "Make" focuses on cool things you can do to make technology work the way you want it to. The publication is inspired by our bestselling "Hacks" series books but with a twist. "Make" is a mook (rhymes with book). We've combined the excitement, unexpectedness, and visual appeal of a magazine with the permanence and in-depth instructiveness of a how-to book. Whether you're a geek or hacker who delights in creating new uses for technology, or a Saturday afternoon tinkerer who loves to get his hands dirty, you'll keep every issue of "Make" on your bookshelf for years to come.
