Lotus(R)Notes(R) Developer's Toolbox will help you streamline and improve every phase of Notes development. Leading IBM Lotus Notes developer Mark Elliott systematically identifies solutions for the key challenges Notes developers face,

offering powerful advice drawn from his extensive enterprise experience. This book presents best practices and step-by-step case studies for building the five most common types of Notes applications: collaboration, calendar, workflow, reference library, and Web site. This book is for Notes developers at all levels of experience, using recent versions from V5.0 through V7.0, and beyond. Like all IBM developerWorks(R) Series books, it is fully integrated with comprehensive Web resources, including working examples of each project, enhanced versions that go beyond the book, sample graphics, and tools for addressing real-world business scenarios. Coverage includes \* Getting started with Domino Designer(R), and using the design elements it provides \* Developing Notes databases, step-by-step: considerations, code instructions, design tips, and project plans \* Mastering and customizing Lotus Formula and LotusScript \* Customizing forms, views, agent behavior, application interfaces, and more \* Building calendar applications with simple and complex recurrent events \* Developing applications that distribute information via email, response documents, and other methods \* Creating reference library applications, and generating Excel(R) spreadsheets for analysis \* Constructing sophisticated workflow and Web-based Notes applications \* Securing, deploying, and maintaining Notes applications, and managing their data \* Enhancing database functionality: more than 95 ready-to-use code modules and customizations \* Exclusive Web resources available only to book registrants The IBM Press developerWorks(R) Series is a unique undertaking in which print books and the Web are mutually supportive. The publications in this series are complemented by resources on the developerWorks Web site on ibm.com. Icons throughout the book alert the reader to these valuable resources.
