[Xhtml/Css Basics for Web Writers_下载链接1_](#)

著者:Batschelet, Margaret W.

出版者:Prentice Hall

出版时间:2006-8

装帧:Pap

isbn:9780131720145

For courses in Web Writing and Web Design. XHTML/CSS Basics for Web Writers is a hands-on textbook that combines explanations of Web design principles and techniques with simple instructions for creating accurate Web code. It guides readers through the entire Web design process, showing them how to assemble and inventory

information, locate graphics, write text and create a standards-compliant design. Devoting a chapter to each Web page element, it offers step-by-step instructions that are understandable to computer novices and also useful for experienced professionals. Its coverage of the most recent developments in Web code, chapters on XML and multimedia, and Web page writing and design make it an excellent reference for anyone seeking to create modern, standards-compliant Web designs.
