出版者:Springer-Verlag New York Inc

出版时间:2006-5

装帧:HRD

isbn:9781402042201

This book makes important aspects of the international discussion on End User Development (EUD) available to a broader audience. It offers a unique set of contributions from research institutes worldwide, addressing relevant issues and proposing original solutions. This broad look at the emerging paradigm of End-User Development will inspire every reader to appreciate its potential for the future. Indeed, the editors hope that readers - "end-users" - will themselves become developers.
