著者:Kock, Ned 编

出版者:Springer-Verlag New York Inc

出版时间:2006-10

装帧:HRD

isbn:9780387360591

This book uses action research to conduct research activities in information technology and systems. It covers the methodological issues that arise when action research methods are conducted, provides examples of action research in practice, and summarizes the philosophical foundations of action research and its application as a methodology in Information Systems research and research programs.
