出版者:Compass Point Books

出版时间:2001-1

装帧:SAL

isbn:9780756500580

These comprehensive books take students on a journey through the diversity of our world. Topics range from interesting animals to cultural and natural world studies. Readers will find plenty of information for report writing on classroom studies. Each book includes a Want to Know More? section for locating additional information, and an At a Glance section with important dates and related information. Each colorful richly designed book in this series takes a fascinating and in-depth look at one of Earth's most intriguing animals. Students will learn the life cycle of the animal, where it lives, what it eats and how it survives in its environment. Bold photos show the animal in its natural habitat. Each animal faces dangers from people living in a modern world and solutions for reducing these dangers are discussed.
