Bright, bold photography, easy-to-read text, hands-on activities make this series of

concept books on colors a welcome addition to any library. These books are designed for young readers to enjoy reading alone or along with a teacher or parent. Two reading levels of information are provided to make the experience fun for everyone. This series explores and supports the standards "Language Arts," "Science," and "Mathematics," as recommended by Content Knowledge: A Compendium of Standards and Benchmarks for K-12 Education.
