A favorite subject of kids, nature lovers, scientists, and collectors, Butterflies takes full advantage of Fandex's unique full-color die-cut format to celebrate 50 butterfly species, from the enormous Queen Alexandra Birdwing, with its 11-inch wingspan, to the Blue Morpho, whose stunning metallic-blue color is caused by tiny prisms in its wings. Each entry includes the Latin name, range, plants used for laying eggs and drinking nectar, migration and mating habits, and how to recognize the species in its caterpillar, pupa, and adult stages. Includes 50 die-cut cards.
