装帧:Pap

isbn:9780897934671

This invaluable resource helps K-3 teachers deal with restless, energetic students including those with attention deficit hyperactivity disorder. The book contains quick movement breaks that can be used between other classroom activities to minimize disruptions and maintain a positive learning environment for all students. The activities, labeled according to appropriate age levels, length of play time, and group size, include shape recognition, stretching and relaxing, pantomime and imagination movements, balancing, and team relays. None of the activities require special skills, and there are enough for every day of the school year.
