Young MacDonald had a farm. Ee-i-ee-i-o. And on that farm he made... A Hig! Ee-i-ee-i-o. A Hig (horse-pig!) that says "oink- neigh" is just one of Young MacDonald's silly animal creations. With his madcap machine, this junior scientist invents a barnyard of delightful animal pairings. It's all in good fun until the animals start an experiment of their own! Preschoolers will love to laugh and sing along with the ridiculous new rhymes, while their older siblings will appreciate the imaginative animal pairings. This mix-and-match twist on "Old MacDonald" is an infectious and hilarious sing-aloud.
