From the Not Just Proms and Parties high-low series for reluctant teen readers and ESL students, which features quick reads, dynamic, character-driven plots, and positive messages for young women. Rica's two older sisters have all the luck. Tall, gorgeous, and confident, the second they hit the beach during family vacation, the boys come calling. Once again, Rica is left behind, on her own. But when a cute volleyball player shows an interest in Rica, things start to look up--until she and one of her sisters realize they have both been the targets of his affection. The sisters finally unite to plot their revenge. But when the plan leads to a beach party with underage drinking and fooling around, Rica finds herself in a frightening situation that's quickly spinning out of her control.
