This book features over 25 beautiful little bags that you can create using simple embroidery, knitting, beading and patchwork techniques. A step-by-step techniques section and stitch library will help you to get a professional-looking finish every time.

The exciting projects make use of gorgeous fabrics, threads, ribbons, beads and yarns to produce stunning highly fashionable bags. The projects range from those that can be made extremely quickly - with a bag that can be made in an evening to accessorize an outfit; to more time-consuming knitted projects, using full-colour charts, templates and trace-offs, and easy-to-understand instructions.
