isbn:9780312267780

William G. Tapply is one of the most widely praised contemporary crime novelists whose works are a deft mix of vivid characterization, taut plotting, and beautiful, polished prose. This omnibus brings together in paperback three of his finest works. ** The Snake Eater-Brady Coyne agrees to represent a Vietnam Vet arrested for possession of marijuana, which he uses to alleviate the pain of his Agent Orange Poisoning. But things turn deadly when the secrets of his clients past erupt into the present. ** The Seventh Enemy - A wilderness expert testifies in favor of an assault weapons ban, earning himself a place on the enemies list of a gun activist group, resulting in attempts on his life. ** Close to the Bone - After successfully defending a man accused of killing a woman while driving drunk, a lawyer friend of Brady's dies in an apparent fishing accident.
