More than twenty years ago William F. Buckley Jr. launched the dashing character of Blackford Oakes like a missile over the literary landscape. This newly minted CIA agent-brainy, bold, and complex-began his career by saving the queen of England and quickly took his place in the pantheon of master spies drawn up by Somerset Maugham, Graham Greene, and John le Carr. Against the backdrop of sinister Cold War intrigue, in this, his eleventh outing, Oakes crosses paths-and swords-with Kim Philby, perhaps the highest-ranking in the parade of defectors to the Soviet Union. Oakes is now himself a master spy, working outside of the agency and around agency rules. His romance with an able and worldly Soviet doctor provides consolation for the death of his beloved Sally. But after his return to Washington, he receives dismaying news. It is inevitable that the great Soviet spy and the renowned American agent will meet again-this time with deadly consequences.
