Freddy is not happy with his boring treadmill life at the pet store. He continually embarrasses himself in an attempt to get adopted. Freddy believes he will have a more civilized and exciting life as soon as he has a home. After a series of funny misadventures (including encounters with a fierce tomcat and two guinea pigs who speak in Shakespearean couplets) he teaches himself to read and write. He then pens his witty and heartwarming autobiography that tells of his journey to self discovery. A hamster has never been smarter or funnier in telling the tale of his exceptional life.
