Reception to this unique series has been overwhelmingly positive. With their shiny foil surfaces and bright colors, MAGIC WINDOWS hold enormous appeal for toddlers and preschoolers. These interactive concept books introduce early-learning concepts and first words. And with the low \$4.95 price point, they make wonderful gifts and impulse

buys. Our original MAGIC WINDOWS technology is a unique format that's guaranteed to generate a "wow!" as a simple pull of a tab changes die-cut, black-and-white images into full-color scenes, highlighted with shining foil. Both children and adults will enjoy the interactive pictures that seem to come alive before their eyes, thanks to a unique new technology, in bright, holographic hues.
