Your survival guide to the maze that is the maze that is the high school experience With real-life stories from teens across the country - as well as high school "survivors" - this book paints a real picture of how teens like you feel about the struggles and triumphs of the daily grind and how they get through it. If you ever feel like you're on the sidelines or that the pressure to perform, conform or maintain appearances gets to be too much, this is the book for you
