First acclaimed as a story-length memoir, then expanded into a novel, "Sylvia" draws us into the lives of a young couple whose struggle to survive Manhattan in the early 1960s involves them in sexual fantasias, paranoia, drugs, and the extreme intimacy of self-destructive violence. Reproducing a time and place with extraordinary clarity, Leonard Michaels explores with self-wounding honesty the excruciating particulars of a youthful marriage headed for disaster. Leonard Michaels (1933-2003) was the author of "Going Places," "I Would Have Saved Them If I Could," and "The Men's Club," among other books. FSG will publish his "Collected Stories" in June to coincide with the reissue of "Sylvia."
