Aletta Honor's psychic gift for reading people's futures seems to have vanished overnight. What is curious is that the disappearance coincided with a mysterious visit from a Native American who came bearing an eagle feather and a cryptic message. Then there's the cousin Aletta never knew she had (a young political revolutionary on the run), who suddenly appears at her doorstep and shares a shocking secret about their family.

One thing's for sure: Aletta's poised for change. Her no-good alcoholic ex-husband is stirring up trouble, a new lover turns out to be bad news, and she can't bear another day of lying to unsuspecting customers. As Aletta digs deeper into her family history, her mission becomes clear: If she ever hopes to regain her clairvoyance, she must go to New Mexico to uncover her great grandmother Adelaide's fascinating but troubling past. So with some kooky friends dying for an adventure outside the confines of their small-town world, Aletta sets off for the southwest, where she will finally come to understand her special talent and the real meaning of life.
