装帧:Pap

isbn:9789059052840

Written for the beginning or intermediate computer user over the age of 50, this large-print guide introduces seniors to the Web, leads users through the basics of

searching and finding information on the Internet, and describes the fundamentals of e-mail management. Electronic communication and connecting with other Internet users is described, including details on customizing a Web browser, downloading free software suitable for use with Windows XP and Vista, and protecting against viruses.
