This book, for a lower reading level, tells you all about the Vietnam War (1965-1975). This was the bloody struggle between South Vietnam and its allies, including the United States, and the North Vietnamese and Viet Cong. Using vivid personal accounts, it describes the terrors of jungle warfare and aerial bombardments. It also charts the progress of the war that saw North Vietnam victorious and the United States humbled by defeat. Find out: When did U.S. troops first arrive in South Vietnam? What did tunnel rats do? What was the Tet Offensive?
