Oliver is mad. The new baby is taking over everything, including all his old toys and his mother's lap. Maybe he should move out, or give the baby away to the first taker. Beloved author/illustrator Martha Alexander takes an honest and funny look at sibling rivalry in these reissues of the 1971 and 1979 classics. Newly recolored art, a larger trim size, and a timeless story line will appeal to a whole new generation of older siblings.
