Through the eyes of an enchanting and mischievous little cat, young children will experience first-hand the feelings of warmth, familiarity and friendliness at being in church and a part of Gods family. Madison starts as a stray cat, shivering and cold, whose curiosity brings her to the window of a church. Her playful ways lead her and a surprised congregation on an adventure as she gets stuck in an organ pipe, wreaks havoc with the music, and finally shoots into the arms of the minister. She and the congregation all learn a lesson from Madisons antics: that no matter who you are, or where you come from, you are always accepted as a member of Gods family.
