The Let's Get Ready series from Cedar Valley Publishing is taking the nation by storm, helping parents and kids prepare for Kindergarten! Teachers at home and schools love it! It's not a storybook or a workbook; it's a book that covers the curriculum: the alphabet in and out of sequence, numbers in and out of sequence, left and right, shapes, colors, high frequency words, positional words, opposites, rhyming, let's read a story and so much more. It's all in one engaging book illustrated with Mrs. Good, the teacher and six adorable Cedar Valley Kids that you simply read to children to learn.
