It's moving day, and everything is packed up and ready to go - everything but Pete's pet mouse, Squeak. Before Pete can get him into his cage, Squeak dashes off, darting into and out of a shoe, through a toy castle, under Pete's sister's bed, under chairs, tables, and, finally, into his cage... This book has it all It's innovative, it's interactive, it's retro, it's a cute story and it comes with an adorable mouse (not real, of course) - Kids will love the added feature of the pull-back mouse and watch it run across the pages of the pop-up book, and their own house Includes unique pull-back mouse 5 large dimensional pop-ups. Each spread has a cleverly constructed pop up with space for the toy mouse to run through - pop-ups include a toy castle, a shoe, mom's legs , a

bed, and finally a cage...the mouse's home. Lively rhyming text and bright, colorful illustrations add to this book's charm
