isbn:9780321145970

Now that Avid Xpress Pro (in combination with the Avid Mojo hardware accelerator) makes true real-time video, film, and audio editing possible from virtually any location

in the world, Hollywood's video editing software of choice is being adopted far beyond Hollywood as well. To get up to speed on both it and Avid Xpress DV quickly and efficiently, video editors and effects creators will want this easy, task-based volume. The entire video-editing process--from getting a DV project rolling to advanced editing and distribution methods--is covered here. Video guru James Monohan leaves no stone unturned as he steps readers through setting up and customizing their desktops; recording and importing files; integrating audio; creating titles, dissolves, and transitions; correcting color; adding special effects; using plug-ins; rendering real-time effects; outputting to disc and the Web; and more. To ease the way, readers will find plenty of the meaty tips and enhanced graphics that have always been the hallmark of this popular series.
