出版者:Natl Geographic Soc Childrens books

出版时间:2000-4

装帧:HRD

isbn:9780792275039

Award-winning science writer Gloria Skurzynski takes young readers on a fascinating tour through the history of time measurement. She shows how humans learned to recognize time and measure it in smaller and smaller units from Stonehenge, which marked the equinoxes; to Egyptian obelisks, which measured the hours; to modern-day atomic clocks, which split seconds into minuscule fractions.
