Discover the intriguing world of reptiles -- their natural history, habits and lifestyles. Here is an original and exciting new look at the fascinating world of reptiles. Stunning

real-life photographs of snakes, crocodiles, lizards and turtles offer a unique "eyewitness" view of some of the world's most curious living creatures, their intriguing characteristics and unusual behavior. See a snake eating a rat, a lizard in mating display, a crocodile's pantry, a baby snake hatching from its egg, and a turtle defending itself. Learn how crocodiles look after their young, how snakes measure the size of their prey, how lizards store fat in their tails, and how chameleons swivel their eyes. Discover how baby reptiles are independent from birth, how snakes are charmed, how geckos walk upside down, how crocodiles swallow stones so they sink under water, how a snake is milked of its venom, and much, much more.
