出版者:Macmillan Computer Pub

出版时间:2004-5

装帧:Pap

isbn:9780789730695

Show Me Microsoft Office Project 2003 covers all the most important Project tasks using clear, step-by-step instructions, and is illustrated with hundreds of helpful screenshots. This easy-to-use book includes Show Me Live! Software that shows you how to perform everyday tasks and helps you gain real-world project experience. Other features include PM Focus, a full sidebar page with project management related information explaining when and why you might use a particular Project function. The

book is perfect for the advanced beginner to intermediate user who has limited experience with Project and who wants to learn through a highly visual, less text extensive approach. Because it is a task-based reference, it is also great for previous version users who want to quickly get up to speed on a new version.
