Mother duck and her five fuzzy little ducklings venture out for a long walk one lovely spring day. One by one each plump little duckling wanders off in search of a very special present. When all have disappeared, lonely mother duck lets out a very sad quack and all her ducklings come waddling back! Each proudly carries a wonderful and thoughtful surprise for loving mother duck--a beautiful flower, a lucky four-leaf clover, a gorgeous seashell, a juicy berry, and a delicious worm!
