She's got the rock, so when does happily ever after kick in? At long last, Ashley Stockingdale--patent attorney, fashionista, and homeowner--can finally add "fiancee" to her spirited resume. That means the next four months will be a dizzying decadent waltz through aisles of Vera Wang, Kenneth Cole, Sheridan sheets, Kate Spade place settings, and Oneida flatware. "Well...maybe not." For starters, the HR department has hired Ashley's ex-boyfriend (yep, the one who ran off to India with that other woman) as the new director of software. And now her fiancée is starting to sound crazy--something about moving across the country, to Philadelphia of all places. Worse of all, right before her eyes, Scarlett I-Need-Some-Prozac O'Hara is hijacking her wedding plans. Life for our heroine is spinning from out of control to downright confusing. But whether she makes it to the end of the aisle or not, she'll never be at a loss for drama.
