Brad and Jen were fun to watch. Britney and Kevin, even better. But?what if you woke up on the A List? Jessica used to paint idly in her East Hampton garden. Now she ducks paparazzi hiding in the bushes. She used to live quietly, happy to be in the shadows. Now she's on the front page of every tabloid magazine. No one said life on the A List would be easy. When Harry Hit Hollywood is the hilarious story of celebrity marriage, where paparazzi watch you wash your hair, and every argument makes Page Six. When sweet, quiet Jessica married Harry-Hollywood's most notorious billionaire bachelor-she knew she'd have to work hard to mend his hard-partying ways. But she didn't expect to become the "it" couple, crowned America's new royalty and adored by celebrities. A hilarious send-up of the Hollywood scene, When Harry Hit Hollywood is a true-love story of when heartland values meet the cash and panache of the rich and ridiculous.
