A highly praised observer of contemporary life and author of *Kreamer vs. Kramer* and *A Perfect Divorce*, Corman zeroes in on single life, modern stress, and religious faith in *The Boyfriend from Hell*. Veronica Delaney, single, in her twenties, a freelance writer working on an article about a satanic cult leader, becomes involved with a dazzling, charismatic man, and she is turned inside out. With his unique storytelling gifts, Corman creates a wonderful, identifiable female character whose circumstance parallels that of so many women... and then it begins to turn. Is this boyfriend a typically uncommitted male or is he hiding something? Is he wonderfully supportive or is he excessively manipulative? Is he dramatically high maintenance or is he inherently evil? From this insightful novelist, here is a spellbinding tale that is true-to-life, deeply involving, and ultimately terrifying.
