"An exceptional debut...Funny and poignant, these stories are textured

gems."--"People" (four-star critic's pick) The stories in this collection, along with Owen King's brilliant title novella set in Maine after the 2000 election, carry the weight of real emotion and revelation and showcase the impressive versatility of a rising talent. An adolescent encounters a giant reptile in the unlikelyst of places, a rundown shopping mall; a baseball player in a fantastic 1930s Coney Island is assailed by the guilt of an illicit romance; a nineteenth-century itinerant dentist finds himself snowed in with a group of trappers for a long evening of primitive surgery and laughing gas reveries. The stories in this collection, along with King's brilliant title novella set in Maine after the 2000 election, carry the weight of real emotion and revelation and showcase the impressive versatility of a rising talent.
