""If I could tell the story in words, I wouldn't need to lug around a camera." -Lewis Hine
"A stunning view of America as captured by groundbreaking photographers American history is punctuated by defining moments-some proud, some tragic, some beautiful. Photography has made it possible for these moments to be captured and shared with the public. As the craft has evolved from unwieldy glass negatives to digital imagery, the photographs themselves have changed the way we see the world. From Mathew

Brady's startling Civil War photographs to NASA's stunning images of the universe, this book highlights twelve photographers whose work has truly changed the nation.
