作者介绍:

Dr. Shawn DuBravac is the chief economist for the Consumer Electronics Association. DuBravac is a widely cited technologist, lending his unique economic perspective and market research background to forecast tech trends that inform executives and other industry leaders. He is a highly sought after speaker on the trends that underpin today’s tech landscape and the relative health of the industry. DuBravac has taught at George Washington University School of Business, George Mason University School of Business and the University of Mary Washington.
