著者:Eichinger, John

出版者:Prentice Hall

出版时间:2004-4

装帧:Pap

isbn:9780131140882

Appropriate as a supplemental text for elementary and middle school math and science methods courses. This user-friendly supplemental text for preservice teachers demonstrates a variety of activities that connect the various disciplines of science to

the study of mathematics. Its 40 engaging, academically rigorous, discovery-based activities balance content with process, encouraging creative, critical thinking through a hands-on, inquiry-based approach. Activity content aligns with the national standards in both science and mathematics. The author's strong constructivist pedagogy and step-by-step procedures make each lesson clear and accessible for classroom use.
