For General Secondary Methods and Introduction to Secondary Schools courses. Preparing secondary school teachers for the realities of teaching in today's classrooms can be daunting. *Teaching in the Secondary School: An Introduction*, 6th Edition, which takes a reflective approach to learning, prepares teachers for today's classroom

through increased emphasis on curriculum, differentiated instruction, assessment, and unit and lesson planning. Teachers enter the classroom prepared with practical skills and lessons to create a successful environment for learning where all students succeed.
