For the first time in print, you'll discover the step-by-step process of carving a modern bust using the traditional and famous system of the Tyrolean carvers. Whether you're

an amateur or a professional, you'll find this unique method of observation to be an inspiration as you work with "planes" throughout the carving process to achieve a modern final piece that is practically "released" from the cubical forms. The book is packed with full-color photographs demonstrating precise cuts and also includes a gallery of different contemporary finishes for the completed bust.
