Is there a pre-Weibo and post-Weibo era in Chinese Internet history? Are hackerspaces in China the same as in the West? How can the censorship of an Internet novel end up “producing” it? How is Lu Xun’s passive and ignorant spectator turned into an activist on the Internet? What are the multiple ways of being political online? Such intriguing questions are the subject of this captivating new book. Its ten chapters combine first-hand research with multi-disciplinary perspectives to offer original insights on the fast-changing landscape of the Chinese Internet. Other topics studied include online political consultation, ethnic identity and racial contestation in cyberspace, and the Southern Weekly protest in 2013. In addition, the editor’s introduction highlights the importance of understanding the depth of people’s experiences and institutional practices with a historical sensibility.

## 评论

本来想给2星的，大部分的东西都没有太多意思，唯一好的就是一种historical的vision，以及这个思想及对于historical approach的应用在这本书里面还算有一些体现的……几年前的东西看可能会有一种马后炮的感觉，所以还是给3星吧
