Red Chip Poker: Late Position is the first volume of this series. In this book we look at a collection of hands played from the Button, Cutoff, and Hijack to discuss important concepts and help you improve your game. These hands were played between \$1/\$2 and \$2/\$5 live and vary in difficulty. Rather than reading like a boring textbook, this

book presents concepts in a conversational tone that makes digesting the material easier and more fun. This book uses the same popular format of hands and missions as was used in Hull's Poker Plays You Can Use.
