评论

A classical introduction to Marx and Engels' philosophy of history and the theoretical bases of Marxist anthropology until late 1970s. The development of Soviet anthropology offers the key to understand the logic of the scholarly environment of Communist China, in addition to the state-triggered class struggles in social reforms.

everything you want to know about ME's anthropology. 出发点、重要文献如GI origin的哲学分析和批判、当代影响，一本全cover. 可惜最后两章没来得及细看
