isbn:9780847813131

"Palm Beach Houses" offers a strikingly illustrated, extensively researched history of Palm Beach architecture. It reveals the stories behind the families who built these palatial homes with exquisite detailing, lavish interiors, and semi-tropical gardens. Valuable close-ups on Addison Mizner, Maurice Fatio, and Marion Sims Wyeth, the three major architects in the area during the 1920s and 1930s, are also included.
