DAS F-PRINZIP® is an architectural 3D board game which encourages a playful examination of the letter F. This concept is based on a constellation of four equally formed F-shapes modelled on the walls of a rectangular room. The short lower bar of the F may serve as a partition. Purpose of the game is to explore the manifold, sheer endless possibilities of creating floor plans and three-dimensional constructions. As a connector between language, shape and function, DAS F-PRINZIP enhances spatial thinking. DAS F-PRINZIP® is the result of the artist Feyyaz' constant development of his own art environments. It compacts the idea of space into a recurring principle with numerous variants. Each set consists of four wooden F-shapes and a booklet in a box.
