This title introduces readers to the strange, mysterious universe of elegant occult and horror. Subtle and compelling Japanese occult and horror manga gracefully melds the two genres into one. There are many transformations that occur and the drama is less

gory than traditional western plots. "Manga Mania: Occult and Horror" is the first western tutorial on this most alluring and complex genre. With his popular step-by-step drawings and clear text, best-selling author Christopher Hart shows exactly how to draw wizards, demon children, vampires, card readers, dragon worshipers and many more denizens of the hidden places between darkness and light.
